Report of the Trustees of Central Cemetery.

Your Trustees, chosen by and for the benefit of its town citizens, heartily recommend a modern method adopted by many of our cities of a certain sum of money which is left to the Trustees, the interest of said sum to be used in caring for said lots, which has been done by two of our late citizens, Mr. J. Discoe Jenness leaving (\$200) two hundred, and Mr. David Philbrick (\$100) one hundred, said sums having been deposited in Portsmouth Savings Bank, the interest to be expended in the care of the family lots. As the years roll on we hope more of our citizens will do likewise, thereby insuring good care and the beautifying of God's acre. During the past year, 7 lots have been sold, leaving 67 1-2 lots unsold.

D. J. PARSONS, Clerk and Treasurer, for the Trustees.

RYE, N. H., Feb. 15, 1907.

Report of School Board.

In presenting our annual report to the citizens of this school district we would express our gratitude to all those who have shown an interest and manifested a willingness to assist in maintaining and advancing the essential ideas in the minds of the children needed to make the schools a success, regular attendance, obedience to rules, and closer application to their work, and trust in future all parents will feel it their duty to exercise this influence upon their children, that our schools may become more and more what they should be, considering the time, labor and money expended, second to none in sense of perfection.

We feel that the schools are in the hands of capable teachers who have held their positions during the past year, and have given good satisfaction for ability and faithfulness in their work.

In accordance with provisions enacted by vote of school meeting last year, our schools are at present under the supervision of a district superintendent, whose labors commenced with the beginning of the school year. As his services here have been of so short duration, we feel it would be unwise at this time to extol or criticise in the matter, but trust our citizens will take into consideration and fully express themselves, as regards his efforts and the benefits resulting therefrom at our coming school meeting. During the past year few changes have been made in text books, a new series of readers have been placed in the schools, also a new series of physiologies.

In closing we make no recommendations or offer any suggestions other than this, that all parents of both sexes, who possibly can, attend the coming school meeting, which will be the most practical time and place for any and all suggestions that would tend to effect and improve our present educational conditions.

Respectfully submitted,

CHARLES S. WHIDDEN,	} School Board
C. M. WOODMAN,	
NORA M. SHAPLEY,
